Latest Foreign Intelligence,
From London papers to the 1st of February, received at New-York, by the ship Logan, Cap. Macey, from Liverpool.

LONDON, January 26.
An epidemic disorder has lately manifested itself at Rottengen, a little town of Wurzburg, in Germany, to which several persons have fallen victims. Several physicians have, in consequence, been sent there, to investigate the nature of the disease, and all communication with the neighbouring country is in the mean time prevented.

January 28.
We received this morning Paris papers to the 25th inst. The diet at Ratisbon having nearly terminated their labours upon the subject of the indemnities, seem now likely to be involved in a discussion upon another question, which, though it probably will not occupy so much time as the former one, will nevertheless be disputed with great pertinacity.

The Emperor of Germany, through the medium of his Minister to the Diet of Ratisbon, has made a very important proposition to that assembly respecting the future composition of the College of Princes as far as relates to religion. His Imperial Majesty proposes that the number of Catholic votes shall amount to seventy, and the Protestant votes to sixty eight. The Diet had not yet taken this proposition into consideration and it is probable that it will meet with a very strong opposition from the Prussian party.

The intelligence which is taken from the German papers respecting Turkey, is, as usual, extremely contradictory. Some accounts state, that the defeat of the Pacha of Cairo was not so complete as has been represented, though it is admitted that he cannot advance against the Beys without very considerable reinforcements; and that the English have observed the strictest neutrality during the whole of the contest. Other letters say, that the English privately supplied the Beys with light artillery and ammunition, and thereby enabled them to defeat the Turkish troops. The Porte, it is said, has applied to France and Russia, to prevail upon the English government to evacuate Egypt.

Letters from Genoa state, that three French sail of the line had arrived in that port, for the purpose of conveying the Polish troops to St. Domingo.

The funds are 57, 95.

February 1.
Both Houses of Parliament will meet this week more pro forma, than for the dispatch of important business. One of the principal attacks to be brought forward by the Grenville Party, will, it is understood, relate to the finance of the country. An attempt is to be made to refute Mr. Addington's late statement respecting the flourishing situation of our revenue and commerce.

The following letter, received by a merchant at Bristol, from a correspondent at Honduras, shews that the reports of a dispute with the Spaniards there, were not altogether without foundation, notwithstanding subsequent accounts state that nothing serious followed:

"Honduras, Sept. 24, 1802.
The Spaniards have been applied to for giving up the River Rio Rondo. Their answer was nearly as follows: "So far from giving up the Northern Rivers, which they held by conquest, they expected to receive orders from their court to take possession of the British settlements in Honduras."

Three interesting Bulls are said to have been demanded from the Pontiff by the Court of Madrid; the first, to nominate the Prince of Peace, Visitor General of all the Orders and Cloisters in the Monarchy; the second, to secure to government the income of all vacant livings for twenty years; and the third to invest the Archbishop of Toledo, brother to the Prince, with full powers to dissolve as many cloisters as he thinks proper.

Accounts have been received at Bombay, that a dangerous insurrection had taken place between the followers of Mahomet at Lahore, and the sect of people called Soones. The seeds of this dissension were sown long since by Behador Shah, who, in his zeal for supporting and propagating the doctrines of Ali, declared his intention of adding to the general prayer a new sentence, viz. "Ali is the Son of God, and the Heir of the Pro-

phet." This sentence had been omitted in the service for some time, till one of the readers in the Grand Mosque introduced the passage, in consequence of which the indignant and infuriated populace rose upon, and immediately sacrificed him to their resentment. The ringleaders of this affray were seized and thrown into prison, on which the populace again rose, burst open the doors and liberated the prisoners; the guards fired on the assailants, who being armed, a smart action commenced, in which, it is reported, upwards of 200 persons fell, and the Soones were obliged to retreat in great disorder. This circumstance has occasioned the greatest confusion amongst the devotees of each party, between whom much blood is likely to be spilt.

In the course of the last year entered port of Greenock 1,405 ships, of 103,330 tons burthen, and navigated by 7,770 men; failed from that port 1,559 ships, of 102,008 tons burthen, and navigated by 7,785 men. During the same period, entered the adjacent harbor of Port Glasgow, 294 ships, of 27,959 tons, and 1,788 men; failed from it, 369 vessels of 36,346 tons, and 2,399 men.

DUBLIN, January 27.
The Favorite Nancy, Gonderland, from Bourdeaux arrived here yesterday, after a passage of eight days. Among the passengers is the master of that fine vessel the Onida Chief, which sailed lately from our Custom-house dock and unhappily foundered on her voyage to America.

The ship Wilmington failed on Sunday last night from Belfast, for New York and Philadelphia, with upwards of 1700 pieces of linen on board.

BERNE, January 13.
The courier from Paris who arrived yesterday, brought us the constitution of our canton decreed by the deputies, and approved of by the first Consul. The Canton is divided into districts, and the districts into tribes. The citizens of the canton, enjoying a fortune of 1000 fr. have alone the right of voting. Each tribe name an elector out of fifty citizens. The union of these electors forms an electoral body of the canton, which names the grand council, composed of two hundred and ninety nine members. It is to that council that the legislative power is confided. It appoints to all places. Twenty seven of its members form the petty council from which are to be taken two avouers, a treasurer and chancellor, who form, with the two oldest and two youngest councillors, the executive committee. The grand council appoints from among its members those who are to form a tribunal of civil appeal and a criminal tribunal.

The same letters announce, that the cantonia organizations of Basle, Fribourg, Lucerne, and Soleure, are also completed; and that they resemble those of Zurich and Berne. The most remarkable difference between the old and new constitution of the cantons, formerly aristocratical, is the political equality between all the citizens who compose them, the application of which is to be found chiefly in the composition of the electoral body.

The provisions by which the exercise of the administrative and that of the judicial powers are confided to the same body, has excited many remonstrances. It is supposed, that provision will be changed.

We learn further, that the establishment of a general Helvetic diet, to assemble once a year, and to consist of one deputy from each canton, it agreed upon. To establish certain equality among the different cantons, the deputies of the great cantons are to have different voices in proportion, respectively, to their population. The meetings of the general diet will be in turns, at Zurich, Berne, Basle, Soleure, Fribourg, and Lucerne. The deputy for the place at which the diet meets, will be President for the time being.

**CONGRESS
OF THE UNITED STATES.
HOUSE OF REPRESENTATIVES.
Monday March 1.**

REPORT.
The Committee of Ways and Means to whom it was yesterday referred, by a resolution of this house, to enquire and report, 'whether Commissioners of the sinking fund have, agreeably to the act 'making provision for the redemption of the whole of the public debt of the U. States,' applied the sum of seven millions three hundred thousand dollars, to the payment of the principal and interest of the public debt? And also, generally to enquire into the accounts and proceedings of the commissioners of the sinking fund; have according to order, proceeded therein, and beg leave to report:

That pursuant to the directions of the committee, a letter was written, and addressed by the chairman of the committee, to the secretary of the treasury, covering a copy of the resolution of the house; and also, a statement of queries thereon, to which the answer of the secretary was required—and that to his answer, which together with sundry explanatory documents is annexed to this report, the committee beg leave to refer, and request that it may be considered as a part of their report.

MARCH 2d, 1803.
At half past 6 o'clock, P. M.

SIR,
The enclosed resolution this day passed the House of Representatives; the annexed paper, marked (A. 1.) contains the objections stated by the mover of the resolution, to which you are requested, if practicable, to return an answer previous to the dissolution of congress. It may be necessary to remark, that the objections to the report of the commissioners of the sinking fund, consisted principally of a supposed variance between the statements contained in that report, and those submitted by the treasury at the last session of congress, and a denial that the sum appropriated by the law of the last session, [seven million three hundred thousand dollars.] had been applied agreeably to the provisions of the act, and that the sum disbursed by the treasury on account of the public debt, has not been fully accounted for—an unaccounted balance remaining of 115,889 dols. 44 cents; moreover, that the sum of 4,914,000 guilders is upon estimate.

With perfect esteem,
I have the honor to be,
Yours,
(Signed)
JOHN RANDOLPH.
ALBERT GALLATIN,
Secretary of the Treasury.

In the House of Representatives of the U. States.
Wednesday, March 2, 1803.

On Motion,
RESOLVED, That the committee of ways and means be directed to enquire, whether the commissioners of the sinking fund have, agreeably to the directions of the act, entitled 'an act making provision for the redemption of the whole of the public debt of the United States,' applied the sum of seven millions three hundred thousand dollars, provided by the same, to the principal and interest of the public debt; and to enquire, generally, into the accounts and proceedings of the commissioners of the sinking fund, and to report to the house,

Extract from the Journal.
**WILLIAM LAMBERT, for
JOHN BECKLEY, Clerk.**

- (A. 1.)
1. Have the commissioners of the sinking fund applied the sum of 7,300,000 dols. to the payment of the public debt, in the year 1803? If they have not applied it, why has it not been done?
2. What was the true amount of interest on the public debt for the year eighteen hundred and two? And is the sum of 4,065,738 dollars, 47 cents, that true amount? A detailed account is requested.
3. What have been the actual remittances to Holland during the year 1802? A detailed account of all the bills, contracts, &c. is requested, with the names of the persons with whom contracts have been made, and from whom bills have been purchased, with the price paid.

4. If the contracts and bills do not cover all the balance in the hands of the commissioners, an account of the remainder is requested, with the names of the persons in whose hands the same remains, with the particular sum held by each person.

6. What were the sums disbursed from the treasury, on account of the domestic debt, between the 1st of October, 1801, and the 1st of January, 1802; and what were the sums disbursed for the same account between October 1st, 1802, and January 1, 1803.

6. In the Treasury Report of December 1801 in table P. the interest of foreign debts for 1802, is said to be 176,931 dols. in table R. the interest is said to be 1,145,250 guilpees—from whence arises the difference? How is the interest stated in table P. made up?

7. An account of the remittances forwarded to Holland, or purchased in 1803, is requested, if convenient—the account to be in detail; and likewise such other information, as the secretary of the treasury may think will elucidate the transactions of the commissioners.

**TREASURY DEPARTMENT,
March 3, 1803.**

SIR,
I had the honor to receive last night at 7 o'clock your letter of the same day, enclosing a resolution of the house in relation to the accounts of the sinking fund, and certain enquiries proposed on that subject by the mover of the resolution.

Although I may give information sufficient to come within the meaning of the resolution, and to elucidate the transactions of the commissioners, time will not perhaps permit, to procure all the detailed accounts specified in the enquiries; all that can be examined and transcribed in the course of the day, shall be transmitted.

I must premise that I had received yesterday from the register of the treasury, a letter hereunto annexed (A.) accompanying an official statement (B.) of the warrants drawn on the treasury, during the year 1802, on account of the public debt, and amounting (after deducting one hundred and nineteen thousand 592, dols. and 78 cents, repayments on account of the Dutch debt) to 9,333,407 dols. 48 cents. This sum is 39,344 dollars and 88 cts. less than the sum of 9,372,752 dols. and 28 cents, which is stated in the report of the secretary of the treasury, to the commissioners of the sinking fund to have been disbursed on that account during that year.

This error arose, as stated by the Register from the necessity of making the report of all the transactions of the year 1802, in the first week of February, 1803, and before the books of the treasury for the last quarter of that year could be posted up.

The difference resulting from the correction, consists in that the disbursements out of the treasury, during the year 1802, were on account of the reimbursement & interest of the domestic debt 4,618,021 dollars 39 cents and on account of the Dutch debt 3,240,399 dols. 25 cents, instead of being 4,654,699 dollars 61 cents, and 3,243,065 dollars 91 cents as stated in the report; and in that the payment in advance, and on account of the annual appropriation of 1803, was only 745,807 dollars and 40 cents, instead of 785,152 dollars 28 cents as stated in the Report.

The objections of the present enquiry seem to be.

I.
An elucidation of certain variations between the report of the commissioners of the sinking fund, and that made on the 18th of Dec. 1801, to congress; to which it is presumed that the second and sixth enquiries of the mover of the resolution refer.

In the statement (P) annexed to the report of the 18th Dec. 1801, the interest of the public debt, including the annual reimbursement of the six per cent, and deferred stocks, is stated at 5,228,034 dols. 67 cents.

In the report of the commissioners of the sinking fund, the interest is stated at dols. 4,065,738 57

And the reimbursement of 6 per cent & deferred stocks,

The difference between the two statements is, Which arises from

The annual interest on the loans obtained from the United States, is stated at 152,900 dols. hundred and ninety the principal of that paid to the bank on the interest on that day, which makes those loans, 35,450 year, and reduces the port to 117,450—see annexed statement (C) to the wishes of the lution, as expressed gives several items of 4,065,738 dols. 57 report of the commissioners fund, as the amount of 2d. The interest on foreign debt, is stated 18th Dec. 1801, at 4 And in report to the oners of the sinking fund statement (C) hereunto ed, at

In the report of the sinking fund, to the sum of dols are added only the mentioned commissions. But on the other hand, the gratification of 12,500 which in the report of ber, 1801, is considered part of the principal of and not included in this, in this last report ed as part of the interest having been the former reports of the include the payments gratifications in the principal.

The reason why the commission of one per cent of installments stated in the report of abovementioned, are been omitted in the statements of the sinking explained.

The difference between
the two statements is, 44,426 73
Which arises from the following items,
viz.

1st. The annual interest on the tempo-
rary loans obtained from the bank of the
United States, is stated in the former re-
port at 152,900 dolls. but one million two
hundred and ninety thousand dollars of
the principal of that debt, having been
paid to the bank on the 30th June last,
the interest on that sum ceased after that
day, which makes the annual interest on
those loans, 35,450 dolls. less for that
year, and reduces that item in the last re-
port to 117,450, as will appear by the
annexed statement (C) which in conformi-
ty to the wishes of the mover of the reso-
lution, as expressed in his second enquiry,
gives several items of the gross amount of
4,065,738 dolls. 57 cents, stated in the
report of the commissioners of the sinking
fund, as the amount of interest for 1802.

2d. The interest due for 1802, on the
foreign debt, is stated in the report of the
18th Dec. 1801, at 476,931 dolls.
And in report to the commisi-
oners of the sinking fund, as per
statement (C) hereunto annex-
ed, at 467,731

Making a difference of dolls. 9,200
In both statements, the interest, pro-
perly so called, is the same, viz. 1,145,250
guilders equal at 40 cents per guilder, to
458,100 dolls. but the difference arises
from the items of commissions and gratifi-
cations.

In the statement of December 1801, to
the sum of dolls. 458,100
are added the following
commissions viz.
One per cent on the in-
terest equal to dolls. 4,581
One per cent on 12,500
guilders, gratifications
on the Dutch loans pay-
able that year, 125 guild-
ers equal to 50

One per cent. on
3,550,000 guilders, the
then supposed amount of
the installments, falling
due during 1802 in Hol-
land and Antwerp,
35,500 guilders, equal
to 14,200

18,831

Making as above stat-
ed dolls. 476,931

In the report of the commissioners of
the sinking fund, to the said
sum of dolls. 458,100
are added only the two first
mentioned commissions of
4,631
But on the other hand the gra-
tification of 12,500 guilders,
which in the report of Decem-
ber, 1801, is considered as
part of the principal of the debt,
and not included in the interest,
is, in this last report consid-
ered as part of the interest; it ne-
ver having been the practice in
former reports of the board, to
include the payments of those
gratifications in the account of
principal.

This item is equal to dolls. 5,000

Making altogether as above
stated, dolls. 467,731

The reason why the last mentioned
commission of one per cent. on the pay-
ment of installments of the principal, and
stated in the report of 18th Dec. 1801, as
abovementioned, at 35,000 guilders, has
been omitted in the report to the commi-
sioners of the sinking fund, remains to be
explained.

(Report to be continued.)

NEW-YORK, March 27.

Arrived, ship Logan, Macey, Liver-
pool; Alexander, Wheeler, Charleston;

ne, —, St. Croix; sloops Harriot,

mery, Jamaica.

Cleared, ship Ann, Coit, Hull; Ame-
rica, Gardner, Lisbon and a market; brig

A letter from Bristol of the 20th of
January states, that the ship New York,
Webb, of and for this port, was to sail on
the 7th February, wind permitting; and
the ship Hope, Phelps, do. in all that

month. The ships Black River, and Sally
had not arrived.

The ship Ann, Coleman, arrived at
Milford Haven on the 29th of Jan. from
the Pacific Ocean, with 1500 barrels
perm. oil on board.

Schr. Minerva, Rutherford, arrived at
Guadaloupe in 24 days from this port.

The ship Liberty, of this port, has ar-
rived at Liverpool, from Charleston.

Arrived since our last,

Ship Logan, Macey, from Liverpool,

ed to be the Liverpool Packet from this
port. Same day, spoke in lat. 50, 54,
ship Minerva, Chat, from Savannah for
Liverpool. 21st, brig Two Friends,

els for Madeira. Twenty days before,

obliged to go to St. Michaels for ballast
and water. March 13, an English ship
from Philadelphia to Dominque, could
not learn her name. Left, General Mer-
cer, Moors, to sail 10th Feb. Brothers,

March 28.

To the politeness of captain Chew, of
the ship Atlantic, who arrived here on
Saturday, we are indebted for a file of
Cork papers to the 10th February, and a
Price Current of the 12th.

The trial of Colonel DESPARD, and
his associates, which took place on the
7th and 9th Feb. occupies the whole of
the London paper of the 10th. Its length
prevents our giving it entire. The evi-
dence against Col. DESPARD fully sub-
stantiated the charge of high treason, & the
jury pronounced him guilty, but recommen-
ded him to mercy. Of his associates, one was
given up by the Attorney-General, no
evidence appearing against him; two
were acquitted by the jury, and nine found
guilty. The address of Lord ELLEN-
BOROUGH to the prisoners was solemn,
awful, and impressive, and filled every
eye in the court with tears. The usual
sentence of the law in cases of High Treas-
on was then passed, which is hanging,
disemboweling, quartering, and behead-
ing.

bern; Mary, Dury, Newburyport; capt.

the cargo is saved on said island, and all
the crew except one. Captain Cranston,
his second mate and one man, set out in
the morning of the 4th of February for

Alexandria Advertiser.

FRIDAY, APRIL 1.

Mr. Snowden.—The following in-
fallible remedy for a burn or scald, has
been obtained of a gentleman from Ger-
many.

Mix sweet oil, or if that cannot be had,
fresh butter, hogs lard, or any such un-
faded substance, (the fresher the better)
with flacked lime, till the composition
shall become of the consistence of paste;
spread it on a linen cloth, double the
cloth and apply it to the wound—it will
instantly relieve the patient from all pain.
Renew the application once in eight hours
for a few days, and the cure will be en-
tirely effected.

N. B. This remedy is worthy to be
preserved in every family.

We learn that Mr. King, our Minister
at the Court of London, is expected to
leave England some time in the month of
April, on board of the John Morgan, a
fine vessel, for N. York, which has been
chartered for his use; so that Mr. King
and family may be expected by the mid-
dle of June.

Phil. pap.

The English ship Lady Nelson, sent to
explore the navigation of New Holland,
and survey its harbors, shoals, &c. has
discovered that that country consists of two
islands, this ship having actually sailed
through the passage between them, enter-
ing on the eastern side a little to the south-
ward of Botany Bay, and coming out on
the western side near St. Peter's islands.

The passage varied greatly in width, in
some parts being quite narrow, and in
others so wide as to be out of sight of land
as they sailed along. The country in
many parts exhibited marks of great fer-
tility, though the western coast was bar-
ren and uninhabited. The English colo-
ny at Botany Bay flourishes in a surprising
degree. A fertile soil, healthy climate,
and habits of industry, have given a spring
to the population.

Towns are rising composed of brick
edifices, many of them in a high style of
elegance, and expensive. Such is the prof-
perity of the colony, that most of those
who went out as convicts choose to re-
main there after the expiration of their
time of banishment.

New-Hampshire Election for Governor.
Accounts from 64 towns, received by
the last mail, give Gilman 6175; Lang-
don 3913—majority for Gilman 2262.

A letter from Liverpool of the 2d Fe-
bruary, says, "The ship Columbia, Fos-
dick, from Savannah, for Liverpool, (not
withstanding the crew left her, and went
ashore near Dublin) is got off and towed
into harbor, with 7 feet water in her
hold."

Mr. Jefferson, the President of the U.
States of America, having received the
Letter and Diploma of Foreign Associate,
addressed to him in the name of the French
National Institute, has answered, that he
accepts the title as a proof of the Frater-
nity which unites in one Family all those
who cultivate the Sciences, whatever part
of the Globe they may inhabit.

London Paper.

We once promised to give Holt credit

for all his confessions. An opportunity is
before us, and we improve it. In the
Bee of last week, the editor declares that
the conduct of Washington, in sending
Mr. Jay to England, to negotiate, "was
approved by every good man." That,
then, Holt confesses, in plain terms, that
there is scarcely a good man in the whole
democratic party: for it is well known
that the sending of Mr. Jay to England,
was pointedly condemned by every demo-
crat who could wag his tongue or clench
a goose quill.

DEMOCRATS AND SALARIES.

From the continual blustering our N.
Hampshire democrats make about the Go-
vernor and Judges salaries, an uninformed
man would suppose they were the most
meek and economical race of mortals on
the globe. But there is an old remark,
that over nice pretensions to delicacy, fre-
quently cover a corrupt bosom, so it is
with democrats and their economy: Mr.
Jefferson, the greatest of them all, actual-
ly receives upwards of 2500 dollars more
than the great Washington, it being the
amount of the house rent paid by the for-
mer President, but which he enjoys at the
expense of the union; and his secretaries
salaries raised above the Washington es-
tablishment 13000 dollars. Such is
their economy, and by this stale cry they
hoped to revolutionize New Hampshire.

The Editors of the Recorder are requested

PASQUIN.

A PRESIDENT.

"Oh! what a fine thing it is to be a
Philosopher!"

YE rulers of nations a minute attend!
And learn a new way, to save a kind
friend.

If, to seize your estate, he's pleas'd to
insult,

Tho' stronger you be, you must not resist.
Two millions or so, do but place in his
hand,

'Twill soften his heart, and bring back
your land.

But if you should ask, why pay such a
fine,

Why resistance at first must mar his de-
sign?

Poor soul! this would do an age or two
past,

But, in this Age of Reason, you'd surely
be cast.

Your method's unknown in Bonaparte's
code;

To BEND is the rage, de Paris a la mode;
So, of Reason and Calm, the lois ne'er re-
pent;

But copy the rule of—A WISE PRESI-
DENT.

as your worship's worth the money, and a
good man and well known, I hope the
court will have no objection to you, for
they know nothing at all, at all, of Pat."

A New and Practical Work.

A PROPOSAL,
By William Y. Birch, & Abraham Small,
of the City of Philadelphia,
FOR PUBLISHING IN VOLUMES,
BY SUBSCRIPTION,
THAT USEFUL AND POPULAR WORK,
THE
Domestic Encyclopædia,
OR, A
DICTIONARY OF FACTS,
AND
USEFUL KNOWLEDGE:

COMPREHENDING
A concise view of the latest discoveries,
inventions, and improvements, chiefly
applicable to rural and domestic eco-
nomy.

TOGETHER WITH
Descriptions of the most interesting ob-
jects of nature and art; the history of
men and animals, in a state of health or
disease; and practical hints respecting
the arts and manufactures, both fami-
liar and commercial.

Illustrated with numerous Engravings and
Cuts.

By A. F. M. WILKICH, A. M.
Author of the Lectures on Diet and Regi-
men, &c. &c.

FIRST AMERICAN EDITION,
With additions, applicable to the present
situation of the U. States,

By JAMES MEASE, M. D.
Fellow of the American Philosophical So-
ciety,

And Corresponding Member of the Literary
and Phil. Soc. at Manchester.

From the above general con-
tent of the work, it will be easily conceived that
the nature of the Domestic Encyclopædia is
peculiarly adapted to the present wants of the
United States. Perhaps it contains a greater
number of useful facts than have ever appeared
in the compass of four moderate volumes. No
pains, trouble, or expense appear to have been
spared to render this economical dictionary as
complete as the present advancement of agricul-
ture, gardening, of the familiar arts and man-
ufactures, as well as the imperfect state of medi-
cal science, would respectively admit. It in-
cludes almost every object more or less connect-
ed with rural, domestic, and animal economy.
Hence the reader will find numerous experiments
related, many hundreds of which have not before
been published in the English language.

With regard to the additions, the editor will
observe, that no exertions shall be wanting on
his part, to render them as useful as possible to
the people of this country. The diseases com-
monly prevalent therein, with the most approv-
ed methods of prevention and cure, shall be
particularly detailed. An account shall be given of
all the discoveries which have been made in the
United States; and many Machines for dimi-
nishing labour, which are peculiar thereto, shall
be described, and illustrated in Plates. In
short, every useful fact in rural and domestic eco-
nomy, omitted by Dr. Willich, and which
may be known to the editor, shall be inserted;
and in order to take advantage of progressing
improvements, arrangements have been made to
have all the periodical works on the above sub-
jects, forwarded as soon as published in England
or France.

The Publishers have but little to add for them-
selves; knowing, that profits are generally are,
and perhaps, ought to be, in a great measure,
unavailing, they refer the Public to the books
they have already published. They have given
to the world two editions of Dr. Kuffel's Mod-
ern Europe, within the last three years; the
manner, therefore, in which they execute their
undertakings, can be ascertained. In the pre-
sent work, if they do not advance much, they
pledge themselves not to degenerate. It shall
be printed in the first style of uniformity and
taste. The Paper shall be superfine; and the
Engravings at least equal to those in the London
copy.

Conditions.

I. It shall be printed in five handsome
obavo volumes. One volume shall be de-
livered every three months. Price to sub-
scribers, two dollars and fifty cents per
volume, in boards, payable on delivery.

II. The first volume shall appear on the
first of April, 1803, and a volume regu-
larly every three months afterwards.

III. It may be had in one delivery when
finished, at twelve dollars and fifty cents,
in boards, or fifteen dollars well bound,
payable on the delivery of the books. It
will, however, be only obtained at these
prices, by those who give the publishers
their names during the progress of the work
to take it when finished.

N. B. The public will please to take notice,
that the amount in price of this improved and
extended work, is not higher than the London
work in four volumes.

Subscriptions to the above
work will be received by Samuel
Bishop and by James Kennedy,
sen. Alexandria.

Dr. FENDALL,
OPERATOR UPON TEETH,

Has just arrived in Alexandria, and may
be seen and consulted at Mr. Gadby's
tavern at any time. As the Doctor's
continuance in town is uncertain, the soon-
er applications are made to him the better,
as he is anxious to return to his residence,
from which place he has been so long ab-
sent.

Dr. Fendall cures the scurvy in the
gums, be it ever so inveterate, in a short
time; loosens loose teeth, by making the
gums grow firm up to them; renders
teeth white and beautiful; prevents their
decay; keeps such as are so from becom-
ing worse, even to old age; fills up those
that are hollow with gold or lead, which
will not only render them useful, but pre-
vents their aching and further decay;
extracts teeth and stumps; make and fixes
artificial teeth.

His Columbian Antiscorbutic Denti-
fice for preserving the teeth, gums,
scurvy, &c. and superior he thinks both
in elegance and efficacy to any other, it
will sold by the Doctor.
